PROFILE

Flutter developer focused on production-quality iOS, Android, and macOS applications. Builds scalable products with clean architecture, modern state management, Firebase, APIs, and thoughtful UI/UX.

CORE SKILLS

- Flutter and Dart
- Riverpod and BLoC
- Clean Architecture, MVC, MVVM
- Firebase Auth, Firestore, Storage
- REST APIs with Dio and HTTP
- Unit and widget testing
- UI/UX implementation
- Performance optimization

TOOLS

Git, GitHub Actions, Fastlane, GoRouter, Hive, SQLite, FCM, Google Maps, Stripe, Gemini API, OpenAI API

FOCUS

- Cross-platform mobile products
- AI and API integrations
- Offline-first experiences
- App Store and Play Store delivery

EXPERIENCE

Flutter Developer

TS Technology

May 2026 - Present

Developing scalable Flutter applications with a focus on performance, clean architecture, and production engineering. Collaborates with cross-functional teams to ship reliable mobile features.

Flutter Intern

TS Technology

Mar 2026 - May 2026

Built cross-platform mobile features using Dart, state management, and modern mobile UI patterns while working with senior developers and established engineering practices.

SELECTED PROJECTS

TravelNest

IN DEVELOPMENT

Flutter travel booking platform with destination search, Firebase services, Google Maps, Stripe payments, and a clean booking flow.

Nova Learn

IN DEVELOPMENT

AI-assisted education platform using Flutter, Firebase, and Gemini API for personalized learning, interactive support, and progress tracking.

TradePulse

IN DEVELOPMENT

Cross-platform investment tracker for iOS, Android, and macOS with watchlists, market data, portfolio analytics, and charts.

WORKING STYLE

- Plan user flows and technical architecture before implementation.
- Translate design systems into polished, responsive Flutter interfaces.
- Test, optimize, and prepare production releases for mobile stores.
